Art Unit: 3635

**DETAILED ACTION**

***Specification***

1. The disclosure is objected to because of the following informalities: The specification fails to provide a written description for drawing figures 2a-d, 4a-b, and 11a-d. Currently the specification only details figures 2,4 and 11. However, these figures have other drawings defined thereunder. Appropriate correction is required.

***Allowable Subject Matter***

2. Claims 2 and 12-17 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to teach the method of fastening a building board to a building framework; wherein the building board includes a fixing member that contacts a rear of the building board and having the combination of a rising portion with an extension extending from a distal end thereof and an engaging portion at one longitudinal end of the fixing member and an engaging tongue formed at the other end of the fixing member such that the tongues of adjacent vertical building panels are received within the engaging portion of another vertical adjacent building panel.

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Yvonne M. Horton whose telephone number is (703) 308-1909.
